

Uni-Bio Science Group Honored at HKIRA's IR Awards Garners "Best IR Company – Small Cap" Award

(Hong Kong, [7] May 2015) – **Uni-Bio Science Group Limited** ("Uni-Bio" or the "Group"; HKEx code: 690) has garnered the "Best IR Company – Small Cap" Award after passing the stringent polling process of Hong Kong Investor Relations Association's ("HKIRA") first Investor Relations Awards ("IR Awards"). The accolade is testimony to the Company's dedicated efforts for excellence in corporate governance, effective policies and best practices in investor relations.

The inaugural IR Awards recognize Hong Kong listed companies and IR professionals for their achievement in investor relations. The 19 categories include Best IR Company, Best IR by Chairman/CEO, Best IR by CFO, Best IR Officer, Best IR Presentation Collaterals, Overall Best IR Company for large cap, mid cap and small cap, and Best IR Company for an IPO. Nominated individuals and companies have participated in an online survey earlier this year, while local and international buy-side and sell-side analysts, as well as fund managers voted for their choices. Nominees with the highest votes in each award category have been selected as award winners.

Mr. Kingsley Leung, Executive Director of Uni-Bio Science Group, said: *"There are approximately 1,800 listed companies in the HKSE and more than 80% are considered 'Small Cap' with market capitalization below HK\$10 billion. Amidst the very fierce competition for the award, we were honored to be nominated alongside 29 outstanding companies from various industries. Actually winning this accolade of 'Best IR Companies' under the 'Small Cap' category is one of the biggest milestones of the Group to date. Since the new directors and management came on board in the first half of last year, the Group has been dedicated to more effective communications with different stakeholders and the investment community via various measures. Highlights include voluntary announcements to enhance corporate transparency, conducting regular investor meetings and presentations and participating in analyst conferences. Winning this prestigious award demonstrates the greater trust earned among investors through our efforts. We would like to express our sincere gratitude to all of our friends in the investment community for their votes and continuous support in us. The honor will continue to motivate us further to pursue excellence in corporate governance and world-class IR standards."*

HKIRA is a professional association comprising IR practitioners and corporate executives responsible for communications between corporate management and the investment community. Established in 2008, it advocates the setting of international standards in IR education, promotes best IR practices and strives to meet the professional development needs of those interested in pursuing the investor relations profession.

About Uni-Bio Science Group Limited (SEHK: 0690)

Uni-Bio Science Group Limited is principally engaged in the research and development, manufacture and distribution of pharmaceutical products.
