**Mr. Kingsley Leung Participated in the SOW Asia 10th Anniversary Fundraiser Dinner
and SOW Asia Media Program 2018 Award Ceremony
Sponsoring Public Welfare Activities and Demonstrating Corporate Social
Responsibilities**

[4 June 2018 – Hong Kong] Mr. Kingsley Leung, the Chairman of **Uni-Bio Science Group Limited** (“Uni-Bio Science” or “the Group”; stock code: 0690), the leading integrated biopharmaceutical researcher, developer and manufacturer joined the SOW Asia 10th Anniversary Fundraiser Dinner on 20 May 2018 as the presenter to present the award to the 1st runner-up of “SOW Asia Media Program 2018 – One-minute Promotional Video for Social Business”. This was a public welfare activity sponsored by the Group in early April. Echoing to its corporate culture of "Leading genuine innovation" and its corporate spirit of “International execution to achieve win-win”, Uni-Bio Science has been actively participating in social welfare, community care, enterprise support and environmental protection activities to demonstrate corporate social responsibilities.

At the fundraiser dinner, over 300 guests including entrepreneurs, representatives from financial institutions and various social sectors had gathered to celebrate the development of SOW Asia over

the past decade and show support to a number of Hong Kong social enterprises. SOW Asia is a charitable foundation based in Hong Kong that supports socially responsible and environmentally conscious enterprises through various financing, investment and incubation programs. Sponsored by the Group, the "SOW Asia Media Program 2018" invited a total of 20 social enterprises and 20 teams of outstanding students from top universities and institutes in Hong Kong to promote social welfare and caring values via social media platforms. Through such event, SOW Asia aims to enhance public awareness in social issues, strengthen the communication between students and the business sector and encourage youngsters to learn more about social enterprises.

Addressing the sponsorship and award ceremony, Mr. Kingsley Leung commented, "Be socially responsible and giving back to the society is what my company and I believe. With a focus on our core business to develop quality and safe drugs, Uni-Bio Science will continue to help others, promote public welfares, create opportunities for talents, and add momentum to the development of social enterprises."
